

Chairman Julius Genachowski
Federal Communications Commission
445 12th Street, SW
Washington, D.C. 20554

June 8, 2011

Dear Chairman Genachowski:

As President and CEO of the Folsom Chamber of Commerce, I have seen Folsom grow from a small rural community to a town outlined with new businesses and homes. The rate of growth this city has seen is truly impressive. Now more than ever it is essential for businesses to function in an entirely wireless environment.

The AT&T/T-Mobile merger (WT 11-65) would greatly improve the way business is conducted. Meetings could be held with less concern that a call may be dropped or Internet connection lost. These are necessities every business needs and we believe that with this proposed acquisition our businesses will have faster and even more reliable service.

We also believe the economy stands to benefit from an AT&T/T-Mobile merger. There would be numerous advancements in the business sector. Companies would have the ability to conduct business in a much more efficient and effective manner. This would end up helping the economy.

I know the Commission has its obligation to look at every detail of this transaction. I am confident that this proposed merger will greatly benefit the business community.

Sincerely,

Joseph P. Gagliardi
President and CEO
Folsom Chamber of Commerce
